Sun, 09 Dec 2018 22:31:00 GMT Law of one price - Wikipedia - In economics, inflation is a sustained increase in the price level of goods and services in an economy over a period of time. When the price level rises, each unit of currency buys fewer goods and services; consequently, inflation reflects a reduction in the purchasing power per unit of money â€“ a loss of real value in the medium of exchange and unit of account within the economy. Inflation - Wikipedia - However, the federal government does

not have the entire U.S. economy at its disposal to service federal debt. The private sector, which produces the goods and services that comprise most of the economy, utilizes some of these resources, and local and state governments also consume some of the nationâ€™s GDP.
