In business, the cost may be one of acquisition, in which case the amount of money expended to acquire it is counted as cost. In this case, money is the input that is gone in order to acquire the thing. Fri, 07 Dec 2018 01:20:00 GMT Cost - Wikipedia - Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified

Introduction. Two essential
elements of modern society,
energy and water, are
inextricably connected. The
production of energy
requires significant amount
of water, and in turn, the
extraction, treatment,
distribution, and use of
water along with waste
water treatment consume a
large amount of energy ,
.For example, Water for
Energy reported that in
2010 about 15% of the
